

The DINGO is a single-phase electric portable vibrator with a tough outer casing that surrounds the motor body.

DINGO

ELECTRIC PORTABLE VIBRATOR

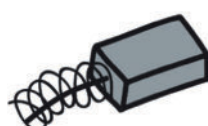

+ Additional protection

The design of its 3 handles provides extra protection to the switch and motor and facilitates its use in vertical works.

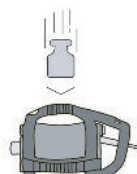

+ Handling

Its three handles enable it to be handled in a variety of positions and hose lengths, making vertical work easier.

+ Easy maintenance

Brushes feature an automated disconnect system and easy external interchangeability.

+ Robust and resistant

The casing of the DINGO is made from materials that offer high impact resistance.
