## Reinforced tubular level 1200mm / 50107120

Brand

Bellota

EAN code

8414299611793

Use

For levelling jobs.

### Bullet points

Tool specially designed for perfectionists. High leveling accuracy: 0.5 mm/m and mechanized working surface for greater precision. Use on both sides.

Three impact-resistant, UV-stable glass tubes. Extra wide profile with double ribs and impact-resistant side bumpers. Guarantee your work, 15 years warranty on the glass tubes.

### Description

Reinforced aluminium tubular level with double ribs and high precision leveling 0.5mm/m. The three glass tubes (2 vertical and 1 horizontal) are impact-resistant and UV stable, with a 15-year warranty. The contact areas are mechanized for greater precision and can be used indistinctly. Strong body thanks to the extra wide profile with double ribs and bi-material impact-resistant side bumpers with increased cushioning and a handle for easy handling and grip. For professional leveling work.
