

FOR CONSTRUCTION / MASONRY / TROWELS /  
Trowels

Product reference

5851-E

Portuguese model trowel with  
certified beech wood handle  
255mm / 5851E

Brand

Bellota

EAN code

8414299133615

Use

Prepare cement and mortar and apply it to construction supports. It won't let you down.

Bullet points

Prepare the cement mixture and spread it with the confidence that the trowel will never break.

Will last a lifetime. Forged in a single piece and manufactured in special Bellota steel. Heat treated.

It won't wobble. Perfect fit between blade and handle in beech, smooth to the touch. PEFC certified.

Description

Professional Portugal model steel trowel, forged in one single piece, maximum durability and total guarantee against breakage (unbreakable). Differentiated heat treatment on blade and key, no breakage, no deformation and no wear. Perfect handle-key joint. PEFC-certified beech wood handle with double ferrule. For masonry work.
