

FOR CONSTRUCTION / MASONRY / TROWELS /
Pointing trowels

Product reference
5903

Pointing trowel with certified
beech wood handle 125mm /
5903

Brand

Bellota

EAN code

8414299135206

Use

Prepare cement and mortar and apply it to construction supports. It won't let you down. Ideal for masonry finishes and touch-ups.

Bullet points

Prepare the cement mixture and spread it with the confidence that the pointing trowel will never break. Will last a lifetime. Forged in a single piece and manufactured in special Bellota steel. Heat treated. It won't wobble. Perfect fit between blade and handle in beech, smooth to the touch.

Description

Professional pointing steel trowel, forged in one single piece, maximum durability and total guarantee against breakage (unbreakable). Differentiated heat treatment on blade and key, no breakage, no deformation and no wear. Perfect handle-key joint. PEFC-certified beech wood handle with a pleasant touch and stainless steel ferrule. For finishing and plastering work in masonry.
