Point Chisel with Hand Guard 5821-18x350 CP/ 582118350CP

Brand	EAN code	Use
Bellota	8414299038286	Use it for general breakage, for channelling, removing concrete remains or those of other materials.

Bullet points

Can cope with anything. Highest quality chrome vanadium steel, induction tempered and totally hardened.

Avoid frights and injury. Hand guard with three lips so you don't hit your hand. Heat treated in three distinct work areas: head, edge and body.

It will be with you for many years. Angled, bevelled and varnished tips.

Description

Professional octagonal point chisel made of high quality chrome vanadium steel, with induction hardened and tempered areas.

Differentiated heat treatment in the 3 different working areas: Head (to ensure user safety), Tip (for maximum duration and service life) and Body (to reduce vibrations when striking). Ground, chamfered and varnished tips. Three levels for greater hand protection.

For working stones and opening cracks.
